Vieglums, kas iedvesmo
Brīvība, kas atraisa
Stabilitāte, kas pārlicina
Kustība, kas iedrošina

Inspiring ease
Unleashed freedom
Convincing stability
Encouraging moves

Atvilktnē

Īpaši izstrādātā atvilktnē vizuāli turpina galda virsmas līnijas plastiku, vienlaicīgi pildot gan estētisko, gan praktisko funkciju.

Nosegpanelis

Pie galda virsmas stiprināmais nosegpanelis pilda aizsedzošu funkciju.

Galda kājas

Abiem galdu kāju veidiem augstums nav regulējams. Pateicoties 3-kāju atbalsta principam, ir panākta perfekta galda stabilitāte, saglabājot eleganci un vieglumu.

Plaukts

Elegantais, plastiskais plaukts ir piestiprināms ērtākajā vietā uz galda virsmas.

Drawer

The drawer of a particular design visually continues the linear plasticity of the table surface while functioning both esthetically and practically.

Covering panel

The covering panel attachable to the table surface performs the covering function.

Table legs

The height of the table legs of both kinds cannot be adjusted. Thanks to the 3 - leg support principle the perfect stability of the table has been achieved while maintaining the elegance and lightness.

Shelf

The elegant, plastic shelf is attachable to any place on the table surface you believe to be most comfortable.

Kombinācijas

Pateicoties formu un līniju dizainam, no galda virsmām iespējams izveidot neskaitāmas variāciju un kombināciju iespējas. Rezultāts vienmēr būs ideāls! Ļaujies radošumam un padari savu ikdienu daudzveidīgāku!

Combinations

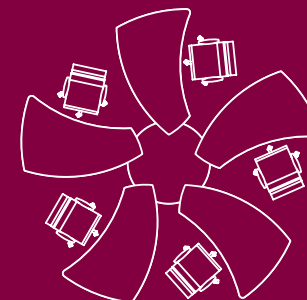

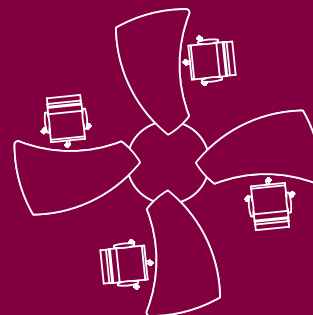

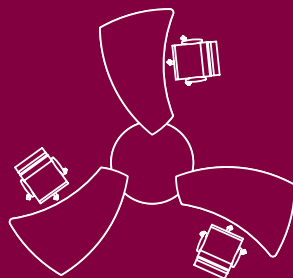

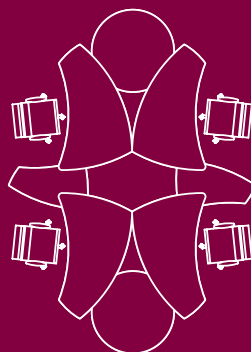

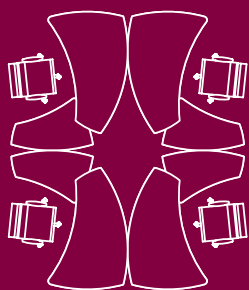

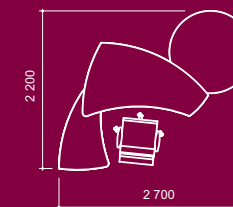

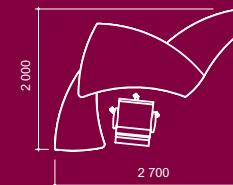

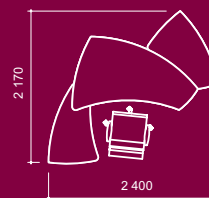

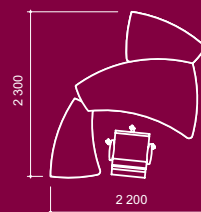

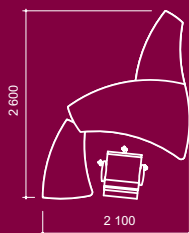

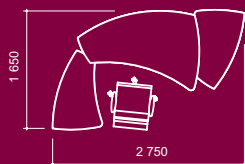

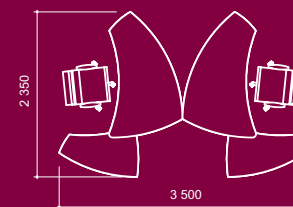

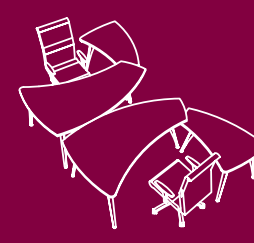

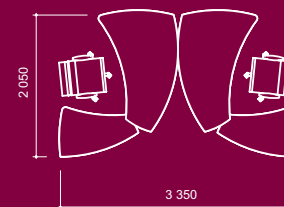

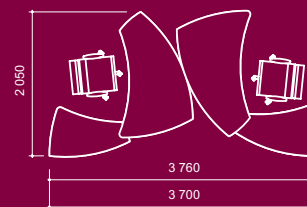

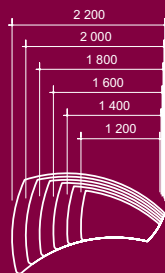

The diverse table surface design provides a wide choice of variations and combinations. Let your creative spirit soar up and don't you worry about the result!
